## ADS configuration error FP\_CHECK\_DESTINATION\_SERVICE fails

Hello experts,

I finished the configuration of ADS with this 2 blog posts:

ADS Configuration in Netweaver 7.3 (https://blogs.sap.com/?p=60746)

ADS Installation and Configuration in NW7.3 or higher (https://blogs.sap.com/?p=103744)

I have already configured ADS many times on Windows OS but this one is on Suse Linux. When I try to run the report FP\_CHECK\_DESTINATION\_SERVICE I get this error message:

SYSTEM ERROR: ADS: com.adobe.ProcessingException: com.adobe.ProcessingException: XMLFM Exception during render: com.adobe.ProcessingException(200.101).

Exception of class CX\_FP\_RUNTIME\_INTERNAL

I have found many SAP Notes about it but none fixed my issue so far. Do you guys have any idea?

Cheers

Johnny

Dear Johnny,

Can you confirm If you have perform the steps from 4.2 to 4.4 as per the note:

944221 - Error analysis for problems in form processing

Regards,

Anil

Hi  
I have checked the blog and it worked!

Check the blog

Hi Johnny

Did you checked the ADSuser whether password is working or if user gets locked. If it is working fine, try running some checks like

direct\_to=%2Fquestions%2F12565074%2Fads-configuration-error-fpcheckdestinationservice.html%3FchildToView%3D12565443%23comment-12565443%26s\_action%3Dlike\_comment%26s\_data%3D12565443%26s\_csrf%3D1584971958956.3098)

1.FP\_TEST\_00

2.FP\_PDF\_TEST\_00

3.FP\_CHECK\_DESTINATION\_SERVICE

4.FP\_CHECK\_REPORT

These are the ABAP programs which you need to check in SE38.

Cheers
